C. W. Olsen Grayling's New Mayor

NEW COUNCIL ORGANIZED MONDAY

C. A. Miller Hired As City Manager

Chris W. Olsen is Grayling's new mayor and J. E. Schoonover mayor protem.

When Grayling's new city council was organized last Monday night its first duty was to select from among the five elected members of the council a mayor. In the balloting Mr. Olsen received three votes, giving him a majority.

The meeting was called to order by Mayor Clarence G. Clippert who has served in that capacity for the past two years. This was in accordance with the regulations laid down by the new city charter laws.

Dr. Clippert asked the new council members to elect a temporary chairman. On motion by J. E. Schoonover Carl Jensen was nominated and elected, and took over the duties of temporary presiding officer. The election of mayor followed. Voting by ballot three votes were taken before a majority was obtained which went to Mr. Olsen.

Following his election Mr. Olsen expressed his appreciation for the confidence the members had shown in his election. To the members of the old council present he expressed his high regard for the splendid work they had done as councilmen for the welfare of the city and said that he hoped the new council would be able to do as well.

The election of mayor protem resulted in the selection of J. E. Schoonover.

The selection of a manager for the city brought out a lot of discussion. An application for the position by C. A. Miller, who has been serving since last fall as city manager, was read. It gave a resume of his activities for over a period of about 10 years. Dr. Clippert, the retiring executive, told of the splendid work Mr. Miller had done since being employed by the Village, and urged that he be engaged for city manager. Endorsements of Mr. Miller for the position were offered by the members present of the old council and other citizens.

Alderman Frank Sales filed an application of Lorne Douglas, Saginaw, a former Grayling resident, for the position of manager, which set forth his qualifications for the work. Both applicants are graduate civil engineers.

In the vote on the application of Mr. Miller the vote stood 3 to 2 in his favor. Those voting for Mr. Miller were Milnes, Schoonover and Mayor Olsen. Those opposing, Frank Sales and Carl Jensen. Mr. Miller accordingly was engaged for this important position, beginning at once and continuing to July 1st, 1936.

The city of Grayling, under this new government, is entitled to be represented on the board of supervisors by two supervisors. The mayor automatically assumes this position; Frank Sales was elected the second member.

This concluded the actions of the council for the evening and the meeting was adjourned to Thursday evening when Manager Miller will meet with the council. E. L. Sparkes and the other village officers continue in their positions until such time as the new manager makes his permanent appointments.

The personnel of Grayling's first city council is as follows: Mayor—Chris W. Olsen; Aldermen—Roy O. Milnes and J. E. Schoonover, former members of the village council; Frank Sales and Carl Jensen; and C. A. Miller, city manager.

Rasmusson Funeral Held Saturday

Services for Rasmus Rasmusson, one of Grayling's pioneer and best known citizens were held Saturday, with a prayer at the family home followed by services at the Danish-Lutheran church.

Rey Juhl officiated and among those present were members of the Grayling Moose Lodge, Danish Brotherhood and Woodmen of America of which organizations he was a member.

Julius Nelson, Lars Rasmusson, Alfred Hanson, James Post, Leon Chappel and Thomas Caniff were the pallbearers and interment was in Elmwood cemetery. Those from out of town in attendance at the services were Mr. and Mrs. Roy Newton, Clifford, Mich., Mr. and Mrs. Mitchell Younken and children, Robert and Ruth, Mr. and Mrs. Arthur Hanson, Detroit; Mr. and Mrs. Edward Creque Jr., Mrs. Anna Hanson, Flint.

Mr. Rasmusson passed away at his home on Tuesday night after having been ailing since last November. He had been able to get out little, however he had been down town until late in the afternoon. He was taken with a heart attack following his evening meal and a second one followed during which he passed away. Mr. Rasmusson was born in Falster, Denmark in 1880 and when he came to America which was when he was a young man he first located in Manistee, coming to Grayling in 1885. In 1890 he was united in marriage to Karen Jensen and of the five children born to the union, one son Emanuel passed away a few years ago and Sam of Grayling, Mrs. Agnes Newton, Clifford, Mrs. Edna Younken, Detroit, and Mrs. Elvira Creque, Flint survive. Mrs. Rasmusson, the mother passed away last November.

In 1915, Mr. Rasmusson went into the lumber business for himself after having been employed from the time he came to Grayling in 1885 by the Sailing Hanson Co. Having lived here for so many years his passing breaks a circle of good Danish friends, whose friendships have continued through some fifty years, and among whom he will be missed very much. He was a shrewd business man and had been very successful in his endeavors.

The family have hosts of friends who extend sympathy in their sad bereavement.

CCC Camps Field Day Fine Event

MEMORIAL DAY SAW CCC ENROLLEES CLASH

Camp Higgins Proved Big Point Winner

The track and field meet held on Memorial day at the Tourist camp for the pleasure of CCC camps 672, 674, 681 and 1611 proved to be a very fine event. This was sponsored by the Grayling Kiwanis club and the business firms of Grayling.

Camp 672 (Camp Higgins) garnered the highest number of points with a total of 33. Camp 681 (AuSable camp) was second with 18 points to its credit; Camp 674 (Camp Hartwick Pines) was third with 14 points. Camp 1611 (Camp Pioneer) failed to annex a point.

The camp Higgins Lake team had a big afternoon. Besides winning the team trophy they captured the engraved relay cup, and Rudy Harrison, Grayling's all-around athlete, representing Camp Higgins Lake, acquired 11 1/2 points to take possession of the engraved high-point cup. Harrison won the 100 yard dash, broad jump and ran on the relay team. Felton of Camp AuSable made 8 1/2 points to place second among the high-point winners.

Camp AuSable, baseball team finished the afternoon by beating Grayling team 7 to 2. The AuSable boys presented a well-balanced team with good pitching, catching, fielding and hitting.

Free hot dogs and coffee were served during the entire afternoon. Everyone seemed happy that afternoon and we feel that the members of the Kiwanis club and business firms of Grayling accomplished a good deed in giving these young men of the several camps an afternoon of good, wholesome entertainment. Archie Kennedy and wife had charge of the refreshments and says that he served over 1100 hot dog sandwiches, besides many gallons of coffee.

ROAD COMM. APPROPRIATES \$7,000 FOR WELFARE

There was a joint meeting of the Board of Supervisors, the Road Commission and officers of the FERA at the courthouse Monday afternoon.

This meeting was for the purpose of providing funds for the purpose of county welfare. After much discussion it was voted that the county had no funds available for this purpose. Harry Souder, chairman of the County Road commission, speaking for the Commission, agreed to provide \$7,000 in labor for welfare purposes. This, together with the \$4,000 he claims the Commission has already provided for this year was the best they could do.

This agreement seemed to meet the approval of the FERA officials, and accordingly the work of the local welfare department will be continued for the year.

CARD OF THANKS

The family of Rasmus Rasmusson acknowledge with sincere thanks the kind expressions of sympathy of their friends, and especially wish to thank all those who had been so kind to their father since the passing of their mother.

Junior Prom Was Nice Affair

Probably one of the most successful as well as enjoyable parties given by a Junior class was that given last Friday night. They entertained a very large crowd and the many out of town guests, many of whom were former pupils, made up a pleasant gathering.

Black and white, the Senior's striking colors made an attractive setting, with the dance floor inclosed with streamers of these colors that extended from the balcony to the floor. Overhead was the blue sky with an airplane soaring in the air, and at one end of the room the orchestra was seated in a dirigible of black and white. Dancers found comfortable settees, rockers and easy chairs and punch was served. Harold Smith was chairman of decorations and with the help of other Juniors, made a beautiful setting for the party.

The music was furnished by Bill Sawyer and his band of Saginaw and it was enjoyed from the time they struck their first note until the party ended at two o'clock. At eleven o'clock the grand march took place led by Clyde Borchers and Miss Jean Lewis, and when the party was at its height confetti and serpentine was tossed over the heads of the merry crowd.

The class of 1936 are to be congratulated on their being such fine hosts and giving such a lovely party.

Among those from out of town who attended were: Mr. and Mrs. Duane McWilliams, Al Hagen, Margaret Gardner, Kathryn McCann, Hugo Richman, Brad Edwards, Isobel Mathewson, Blaine Rutledge of Roscommon; Tracy Andrews, Harry Weiss, Helen Rollins, Jean Lewis, Ronald Eley, Sophie Cole, Marion Goodrich, Anson Schurer, Gaylord.

Ila Welch, Josephine Polinka, West Branch; Ruth Cornell, Mark Graham, Harbor Springs; Bernice Davies, Bay City; Virginia Phelps, Emil Kraus, Emanuel Johnson, Jean and John Michelson, Detroit; Helen E. McLeod, Vella Hermann, Mary Schumann, Lansing; Charles Hill, Kingsley; James Miller, Vanderbilt; Lillian Landsberg, Ralph Smith, Inkster.

Legion Jottings

On Tuesday night, June 18th, our Drum and Bugle Corps has again booked the Johnsons Rustic Dance Palace at Prudenville, on Houghton Lake for another one of our famous dance parties, having engaged one of the finest college bands in the state of Michigan, Mary Herbert's eleven piece Olivet College Band. Those who attended our other party claimed to have had a good time. Well this will be a bigger and better party than we have ever held before. The admission price has been put at a reasonable rate, 50c per person, and you will say it is well worth it.

Clement Blaine and Walter Felke have joined our Drum and Bugle Corps, and do they do their stuff!

Thursday evening there will be a meeting of all Home-Coming committees at our hall. Everyone on these committees is requested to be present.

Our mascot Drummer Junior McNamara has received a new sparkling regulation snare drum with Legion emblem, and is he proud!

Watch this column for developments on the Homecoming. We soon will have a complete set-up to give out to the people but at this time the program is not complete. But don't forget the Homecoming is going over with a bang and don't forget the date is the same, July 14 to 21, inclusive.

We are sure surprised at some of our ex-service men who could not put aside a few minor things to turn out in memory of our departed comrades. The sooner all ex-service men take to heart the idea that nothing comes ahead of Memorial Day services the better feeling in general will arise among ex-service men.

It is requested that all Drum and Bugle Corps members be present tonight at the Hall at 7 o'clock sharp. Business of importance to all coming up at this meeting.

Ross Barber Found Drowned In AuSable

Ross Barber, 41 years of age, a long time resident of Grayling, drowned in the AuSable river at the city park near the U.S.-27 bridge Sunday. Young boys fishing above the dam discovered his body in the water.

It is reported that he had been ill with pneumonia during the past winter since which time he had complained of a weak heart and at times was inclined to wander. It is the belief of the officers that Mr. Barber had wandered into the park and accidentally stumbled on the rocks bordering on the pond and fell into the water. Again it is the opinion that he had had a heart attack and fell into the water. It is estimated that he had been in the water about 12 hours before the body was found. His cap was found at the edge of the water near where the body was recovered.

The funeral was held Monday afternoon at the Sorenson Funeral Parlor. The deceased was 41 years of age and had been a resident of Grayling for seventeen years. Interment was in Elmwood cemetery. He is survived by two sons, Clarence, of Beaver Creek and Nicholas, of Fife Lake; four sisters, Mrs. William Bowen of Doster, Mrs. Harry Ingersoll and Mrs. Irwin Haskins of Fife Lake and Mrs. Dean Hall of South Boardman; and four brothers, Charles, Vern and George of Grayling and Ray of Fife Lake.

Memorial Day Nicely Observed

BAND AND BUGLE & DRUM CORPS TAKE PART IN PARADE

One of the pleasant duties of the American Legion Post No. 109 since its organization has been to continue to carry on the observation of Memorial Day.

As is customary last Thursday departed comrades were remembered with the strewing of flowers over their last resting places, the offering of a prayer and the still firmer uniting of brotherly love of those who are left behind teaching us a lesson as we live on.

Services began at ten o'clock, when the various organizations met at the American Legion hall. Marching from the hall to the U.S.-27 bridge, the following made up the procession: Grayling Post 109, its Drum and Bugle Corps, led by the colors and Legion banner carried by Orel Levan and Frank Decker with Harold Edwards and Walter Shaw as color guards. Lieut. John Erkes was in charge. Following were other ex-service men—veterans of the World War, and Arthur E. Wendt and Will Johnson, Spanish-American war veterans, many CCC men from the camps and then Grayling citizens band, school children and the Boy Scout Drum and Bugle corps.

At the services at the bridge Rev. Hans Juhl offered prayer, following which the procession wended its way to Elmwood cemetery. Services opened with a prayer by Chaplain E. W. Todd and Father Paquette, chaplain of the fourth CCC district gave a short but eloquent address, that touched the hearts and refreshed the memories of the large gathering. Emil Giegling, chaplain of Grayling Post gave Lincoln's Gettysburg speech. Alfred Hanson gave the cannon salute, taps echoed in the distance, blown by Harold McNeven and Harold Skingley.

The turnout was one of the largest in years and with the new Legion Drum and Bugle Corps, making their first appearance made it seem more impressive than ever. They were clad in white duck trousers and shirts with which they wore black string ties and their Legion caps. They made a striking appearance and were admired by the large crowd that was out to join in observing the day.

Grayling is proud of this new musical organization and the nice showing they made that day as did also the Boys Bugle and Drum Corps.

Commencement Thursday June 13

CLASS DAY PROGRAM JUNE TWELFTH

With the traditional features of graduation the Class of '35 faces the last days of its school career and will soon join the ranks of Alumni of Grayling High. The customary three services will bring the school year to its conclusion next week Thursday, with the Commencement exercises.

The Seniors will be present at their Baccalaureate services at the Michelson Memorial church this Sunday evening at 7:30. The Rev. Edw. Flory of West Branch will preach the Baccalaureate sermon. Monday and Tuesday will find the whole school struggling with the final exam problem; and on Wednesday evening at 8:00 the Seniors will present their traditional Class Day program, their final contribution before the commencement ceremonies. These will also start at 8:00 and the speaker will be Dr. James King, former president of Olivet College. Dr. King is an experienced Commencement speaker and is appearing on the commencement program of two Detroit high schools this year. He will be worth hearing, as he always is. With these three services the Seniors will become Alumni and the year 1934-5 will be brought to a close.

The Class of '35 has the following membership: Clara Atkinson, Eva Mae Bugby, Donald Charron, Arthur Corwin, Donald Gottho, Charles Corwin, LeRoy Pailing, DeAlton Griffith, Sam Gust, Virginia Hartley, Kenneth Hoesli, Roger Kniff. Alex Kochanowski, Elizabeth Kraus, Virginia Kraus, Sylvia Kottilla, George Lietz, Clayton McDonnell, Eva Madsen, LeRoy Milliken, Sanford Palmer, Lois Parker, Jean Peterson. Harvey Regan, Josephine Robarge, Beverly Schable, Robert Sorenson, and Reginald Sheehy. The class numbers twenty-eight.

HOSPITAL NOTES

Who have entered the hospital during the past week: Emanuel Chestnut, Detroit; John R. Mauk, CCC 681; Mrs. Allen and baby Mary of Spring Lake.

Those who have been dismissed were: Jane Bugby, Mrs. Emory Craft, Grayling; Dr. R. W. Albi C.C.C. 1611.

Care of Grounds Adds To Homes

TREATMENT IMPORTANT SPRING AND SUMMER TASK

(From Bay City Daily Times)
Planting, pruning, and trim-
ming shrubbery take a promi-
nent place in home beautification
during the spring and summer
months.

In improving the general ap-
pearance of grounds about the
house, dead branches on trees
and shrubs should be neatly
trimmed and either disposed of
or stacked in a fertilizer bin
where they may decay until us-
able as fertilizer.

Not only should dead wood be
removed but trees should be
trimmed in accordance with good
landscaping principles so that
desirable branches will develop.
Elms, for example, used for
street trees and along-driveways
should be trimmed so that they
will gradually develop a spread-
ing top like a giant umbrella.
Spruce is most effective when
developed as a towering green
spire. The dense crown of the
hard maple is striking as a bushy
ball in which the yellow, brown
and red shades of fall merge in
a flame of color.

Trim Trunks

In general, street trees should
have their trunks trimmed to
uniform height and sufficiently
high so that there will always be
ample clearance over both walks
and streets. Trees located on
lawns, especially where there is
sufficient space for the natural
spread of their branches, are
more attractive when the
branches begin with a wide
spread at the ground line. Then
the gradually tapering effect of
the tree from the ground to its
top provides a rare exhibit of
landscape perfection.

Because of the length of time
required to grow trees to desir-

able shade-tree size, they should
be valued by the home owner,
and every precaution should be
taken to protect them. If the
foliage last year did not have a
thrifty growth and natural color,
it is possible that the roots should
be fertilized. In other cases,
where decay has started in the
tree trunk, it may be necessary
to have an expert tree surgeon
remove the decayed parts and re-
inforce the trunk with concrete.
It is often advisable to bolt
various branches together near
their dividing point to prevent a
tree from splitting, while in
other cases steel cables are ex-
tended between various branches
to prevent them from break-
ing off during severe wind
storms.

After existing trees are prop-
erly conditioned, the shrubbery
trimmed and dead stock remov-
ed, then the home owner may
do required transplanting and
obtain such additional stock as
may be needed from a nursery.
He will then be able to obtain
beautiful landscaping effects as
the flowering plants burst into
full bloom and the foliage de-
velops into a variety of lacy pat-
terns.

Flower beds and rock gardens
should have the soil around
existing plants cleared of litter
and needed additional rich soil
and fertilizer added. Occasion-
ally acid soil needs neutralizing.

Care Is Urged

While gardening and landscap-
ing may be done at this time
with hardy perennial plants, care
should be taken not to expose
under annuals prematurely or
until the home owner is reason-
ably satisfied that they will not
be subjected to a late frost.

The lawn, of course, should re-
ceive careful attention and
should be cleared of all litter,
sunk places filled with fresh
rich soil and humus, and fertil-
izer added as needed. Spring is
also an excellent time to remove
undesirable weed growth from
the lawn.

Credit for doing needed land-
scape work is insurable under
the modernization credit plan of
the Federal Housing Administra-
tion and is obtainable from any
approved lending agency. This
makes it easy and convenient for
owners to beautify and increase
the value of their properties.

Landscaping may be most eco-
nomically done during the spring,
when climatic conditions are
most favorable for plant growth.

The Spruce Hen

The spruce hen is widely distrib-
uted through all the wooded areas
in the Northwest territories and the
partridge or ruffed grouse has been
found as far north as the Macken-
zie river delta in the Arctic area,
hard by the Arctic coast. In the
southern parts of the territories the
sharp tailed grouse is found in plen-
tiful numbers.

Kiwanians Hear Home Coming Plans

A. L. BIBBINS TALKS TO
"HOME" FRIENDS

As usual with the regular
Wednesday noon Kiwanis meet-
ings, the one Wednesday was
highly interesting. The members
were pleased to hear Clarence
Johnson's resume of the plans
for the home-coming that is
scheduled to begin July 14th and
continue to the 21st. Also A. L.
Bibbins, generally known in his
base ball days in Grayling, over
20 years ago, as "Bib" was in
town and this meeting afforded
a lot of his old friends to meet
him again and to hear his fine
message. Another guest at the
meeting was Mr. H. A. Fick,
local manager of the federal re-
habilitation commission, a frater-
nity brother of Mr. Bibbins.
He gave an outline of the work
his commission was doing here.
Clarence in his discussion of
the home-coming plans gave a
skeleton outline. Sunday, June
14th the first day will be "Band"
day and at that time there will
be held here the North Eastern
Michigan Band association picnic
when it is expected that there
will be 14 bands in attendance.
June 15th is still open.
June 16—Field day for the
youngsters.

June 17—Home-coming ball at
the School gym in the evening.
Airplane show and Scandina-
vian picnic at Danish Landing
Lake Margrethe.

June 18—Parade of bands and
floats.

June 19—Dedication of Hart-
wick Memorial Pines Park. A
big program is planned with
many state officers present.
Judge Frank Bell of Neenah,
a former Grayling young man,
will give the address.

June 20—Governor's review at
Military reservation and Veter-
ans round-up of 10th district
Legislators.

Grayling streets, business
places and residences will be
decorated, and the citizens gen-
erally are expecting to cooperate
with the Home-coming commit-
tees. There will be a large
carnival company for the amuse-
ment of those in attendance.

Glad to Be "Home."

Mr. Bibbins played ball and
was the catcher for the Gray-
ling team in 1912 and 1913 at
the time when baseball was
baseball in real earnest. When
Henry (Tom) Stevens' Otsego
of Gaylord would rather beat
Grayling than to do anything else
on earth. Norman (Baldy)
Spencer was the leading slab
artist for Grayling, and this
battery of Spencer-Bibbins and
a well balanced team of fielders
and sluggers took the scalp of
the Otsego in a large majority
of the games. Those were great
days and "Bib" was right in the
midst of the activities—a stu-
dent at M. S. C. and a job—Mr.
Bibbins worked in summer for
T. Hanson at the T-Town mill, as
"tally boy." Evidence by Mr.
Bibbins informal talk these
memories still linger with him.
He said in part the following:
"It is good to be home. Gray-
ling was my first home after I
left home. Here I spent two
very enjoyable summers. I count
the two major pleasures in my
life as my four years in college
and two summers in Grayling.
The good counsels I had from
friends in Grayling impressed
me so much that I shall always
remember them. That taught me
to take interest in young men.
One of the sweetest things in
my life is that Grayling taught
me to know men. It gave me the
spirit of loyalty to one another.
Thank Grayling for teaching me
the spirit of life."

Mr. Bibbins came to Grayling
a young college boy and this was
his first experience away from
home. Fortunately he fell into
good associations. He was here
to play ball and there are many
still here who recall this fine,
cultured young man who tackled
a tough job and gave Grayling
everything he had. There was
fight to win in every ball game.
During the Labor Day week end
series with Tom Stevens' Otsego,
Grayling won four out of the
seven games played. Our play-
ers were home boys while the
Otsego was loaded with such
players as George Mullen, Ed
Bowerman, both ex-Tigers, and
other professional talent. And
no finer compliment could have
been paid Hawk Hanson's Gray-
ling team than when Stevens
wired Walter Johnson at Wash-
ington, then the greatest pitcher
in the world, offering him \$1,500
to come to Grayling and pitch
one game for the Otsego. John-
son failed to arrive.

Those were baseball days in
earnest. And by them we were
privileged to know Mr. Bibbins
and "Baldy" Spencer. If the
former has profited from his ex-
periences here, we too, who
learned to know and appreciate
him during those days, still have
the finest appreciation for his
staring character. Mr. Bibbins
resides in Buffalo and came here
purposefully to visit Grayling after
an absence of over 20 years. It
is good to meet him again.

NIGHT STATION-TO-STATION RATE PERIOD ADVANCED TO 7 O'CLOCK

Additional convenience for
telephone customers, particularly
those who use long distance and
toll service, results from advanc-
ing the effective hour for night
long distance station-to-station
rates to 7 P. M. from 8:30 P. M.
beginning with Saturday, June
1st. The change in time applies
not only to rates between points
within the State of Michigan, but
also to points outside of Michi-
gan. At the same date, night
rates, which are 50 less than day
rates for a three-minute call, be-
comes effective between 5 P. M.
and 5 A. M. on calls to points
in Europe.

Under the proposed new tariffs,
station-to-station day rates for
long distance calls, both intra-
state and interstate, will remain
in effect from 4:30 A. M. to 7 P.
M. as in the past. Evening rates,
which have been in effect from 7
P. M. to 8:30 P. M. and which
were about 25 percent lower than
day rates, are eliminated, and
night rates, which were about
40 percent lower than day rates
to points more than 50 miles
distant, will be in effect from
7 P. M. to 4:30 A. M.

With minimum rates to most
points effective one and a half
hours earlier, long distance ser-
vice now offers more time and
more convenient hours in which
to make night calls.

Riches of Croesus

Although the riches of Croesus
are proverbial, no exact figures or
comparisons of his wealth with that
of present-day wealthy men are
available. His riches were obtained
chiefly from mines and the gold dust
of the River Pactolus, and were
greater than those of any king be-
fore him. He carried his love of
splendor to extravagance.

National Better Hous- ing Day Scheduled For June 15th, 1935

Washington, D. C., May 16—A
great mass construction of new
homes will begin simultaneously
in hundreds of communities all
over the country on Saturday,
June 5, in celebration of Nation-
al Better Housing Day. This an-
nouncement was made today by
Stewart McDonald, Acting Fed-
eral Housing Administrator.

Special exercises in observance
of National Better Housing Day
are being planned for each of
more than 7,400 communities in
which better housing committee
chairmen have been appointed.

In each community where the
local committee is functioning
actively, plans are already under-
way for the construction of from
one to twenty-five new model
homes under direct sponsorship
of the committee. Actual con-
struction on all these homes is
being scheduled to start at the
same moment, as far as practic-
able for such a nationwide
ground breaking.

Success of this first celebration
of National Better Housing Day
is virtually assured with around
250,000 men and women actively
engaged voluntarily in promot-
ing the better housing program
in their own communities with
the aid of the Federal Housing
Administration.

In addition to local business,
financial and industrial leaders,
national manufacturers are co-
operating in the better housing
program generally and in the
National Better Housing Day
specifically, Mr. McDonald said.
One company alone is planning
to start construction of several
hundred model homes in as many
communities on June 15, in co-
operation with local builders.
Other concerns are planning to
erect model homes of their own,
bearing the company's name, in
many key cities.

It was emphasized that these
homes will not be erected mere-
ly for exhibition purposes, but
will be practical and livable.
Built to be sold to individuals
after the exhibition period is
over.

These new model homes are
expected to be financed under the
mutual mortgage insurance plan

SCHOOL AFFAIRS

Thursday, June 6th, the B. F.
Goodrich Rubber Company, will
present a movie at the High
School. This movie has many
features, one of which will show
unusual rubber products in the
making. The entire feature be-
sides being interesting, will also
be educational and will be shown
at 3:15, 7:00 and 9:00 p. m. The
school is very glad to present
this to the public and admission
is free. We are indebted to Leo
Schram and Frank Ahman for
making this showing possible.
Leo Schram and Frank Ahman,
local agents, are responsible for
bringing this feature previously
shown in thirty-five northern
Michigan schools, to Grayling.

The Forest Service recently
put on exhibit a huge construct-
ed model of a piece of land. It
showed sections of lake shore, of
woods, the work of replanting,
of the Federal Housing Adminis-
tration.

No money is advanced for con-
struction of these or any other
houses by the Federal Housing
Administration, it was emphasized.
Erection of each of the
thousands of these new model
homes is being planned and
financed locally, under the spon-
sorship of the voluntary mem-
bership of the local better hous-
ing committee, with the Admin-
istration insuring the mortgages.

There are various ways in
which the local committees, are
arranging for construction of
their National Better Housing
Day homes, it was stated. Some
committees have incorporated
themselves so that they can
qualify as borrowers and will
build their own homes, to be
sold later to individuals. Many
are arranging for leading con-
tractors or builders to erect the
homes under their sponsorship.
Others have accepted offers of
local newspapers, radio stations,
department stores and similar
concerns.

Insuring offices of the Federal
Housing Administration in every
state are preparing to handle ap-
plications for insurance of the
mortgages on these National Bet-
ter Housing Day homes with the
least possible delay, in order to
allow construction to start
promptly on June 15.—The Lead-
er and Kalkaskian.

fire control, and the control of
erosion. The main feature was
a small C. C. C. camp recon-
structed in very realistic stand-
ards. The students viewed the
exhibit and voted it very inter-
esting.

The Ladies Auxiliary of the
Golf Club met for their pot luck
luncheon Wednesday afternoon.
The Auxiliary are planning on
making many improvements at
the golf house.

Thursday evening, May 30th,
the ladies and gentlemen enjoy-
ed a fine dinner at the golf club
house. The dinner followed a
two-ball foursome with men and
women playing. Mrs. Geo.
Olson and Mr. Oscar Hanson had
the low score.

Washington Notes And Comments

(By Congressman Roy O. Woodruff, Tenth Michigan District)

Woodruff Would Pay Bonus

The President has vetoed the Patman Bill to pay the Adjusted Service Certificate at this time. He appeared before a joint meeting of the House and Senate and stated his objections in his usual forceful language. The House, as soon as he had completed reading his veto message and had left the chamber, voted upon the question whether the bill should become law. "The disapproval of the President notwithstanding," and voted in the affirmative by 322 to 98. After a short debate, the Senate sustained the President by a vote of 54 to 40.

The President held forth at length upon the dangers of inflation by paying the \$2,200,000 necessary by issuing United States banknotes for the purpose. Of course, it is agreed that if Congress were to indulge in a program of paying government debts and expenses by the use of the printing press, uncontrolled inflation would soon be upon us. Misery and suffering to a degree heretofore unknown in this country would afflict our people as a result. So, such a program, unless based upon limitations that would not permit it to get out of hand, should not be undertaken.

For many years, it was agreed by the nations of the earth that a metallic base for currency in the ratio of 40 per cent of gold or silver to the amount of paper currency issued, was sufficient to meet every requirement of a sound money system, and upon this basis would not produce inflation.

According to the Treasury Report of May 22, 1935, we had on hand gold in the amount of \$8,761,734,394.08, and silver in the amount of \$811,904,259.69. Outstanding against this metallic base, provided we return to a currency based upon and redeemable in the precious metals, we have silver certificates and treasury notes in the amount of \$797,173,022, and Federal Reserve notes in the amount of \$3,407,746,255, or a total paper currency outstanding against the metallic reserve of \$4,204,919,277.

It will be seen from these figures that we could redeem every dollar of such currency now in circulation at full 100 per cent in gold. We could pay the Adjusted Service Certificates in full in gold and still have in round figures \$2,350,000,000 in gold remaining in the Treasury. In addition to this sum, we would still have our more than \$800,000,000 in silver—remaining as metallic base for future issues of currency. We are constantly at the expense of other nations, adding to our gold and silver reserves. A newspaper report within the past few days stated that approximately \$40,000,000 in gold was being shipped from France to this country. This is only one of frequent reports of like character.

No use is being made of this gold in the Treasury. No citizen of the United States is permitted to get his hands on any part of it, unless it is to be used in the arts. Just what use are we going to make of this great hoard of yellow metal? The present Administration does not propose to permit us as citizens to use it for money. Neither currency nor government bonds are redeemable in gold. It cannot be claimed that it is now being used as the basis of our currency. We cannot eat it. What are we going to do with it?

It occurs to me that one of the things which would be helpful to a restoration of normal economic conditions is a return to a stabilized currency, a gold standard. Why not celebrate this return by putting gold into circulation by paying the Adjusted Service Certificates with it. This would once again place this money at the disposal of the people. It would be distributed evenly everywhere throughout the country, and would constitute no charge whatsoever against the people in the way of interest or taxes, and would in no way constitute a threat of inflation.

When we think of all the money now being borrowed and thrown to the four winds in useless or extravagant ways such as the highway now being built with money out of the Federal Treasury down the Florida Keys to Key West with no financial contribution from the State of Florida; when we think of the Passamaquoddy Bay hydro-electric development, undertaken in a region sparsely populated and having no possible market for the additional electrical current; and when we think of the expensive reclamation dams in the west to produce immense electric power for which no market whatever is available, and to reclaim arid lands for cultivation in competition with

Camp News

Camp Higgins

Foreman Bassett of the MECW staff who has been stationed here for some time, was transferred last week to Camp Ontonagon where he will do work similar to that in which he was engaged here, which was principally mapping out proposed catch basins.

Work crews from Camp Higgins Lake started improvements this week at the Grayling airport, such as leveling of knolls and eradication of small shrubs.

Walter McDonald, amateur radio operator of station W8MPY at this camp, has sent his transmitter to Traverse City to be rebuilt for the electric current available here. For several weeks he successfully operated with a converter loaned by Lt. Kearney of the Harrison camp.

M. S. Gerred, camp superintendent, states that blister rust projects for Camp Higgins Lake crews started June 2 with work at the nursery. The men on this detail will be directed by Foreman William Sampsel.

A 40 caterpillar tractor now in use at the Pioneer camp is to be transferred here soon for use on work projects. The machine is nearly new.

A forestry congress meeting at Houghton Lake June 19, 20 and 21 will visit the Sewell Hill fire tower, which was constructed last year by members of this camp, the Higgins Lake nursery, and other work projects of this company.

An appropriation of \$100 was recently made to provide seats in all MECW trucks operating out of here carrying men on work projects. This will lessen danger of accidents.

Friday of last week was pay day—the most important event in the life of men in CCC camps.

This week John Mallinger, MECW foreman is giving instruction to a class in care and use of tools on forest fire fighting.

Camp Higgins Lake was well represented in the track and field meet at Grayling Decoration Day and members of the organization very much appreciated the courtesy extended them by the business men of Grayling in arranging the events and offering the prizes.

Capt. E. W. Todd spent the latter part of last week among the CCC camps in this vicinity, making his headquarters here. Formerly he was stationed here as sub-district chaplain, recently going to Camp Custer as district chaplain for the lower peninsula.

Major Stacy from Corps Area headquarters and Major Sawyer from Camp Custer, medical officers, were here last week on business.

Library circulation last month was well over 500 books, the best figures the camp has reported since records on the library were started.

Starting June 1, Frank Moore was made mess steward; Paul Hendrickson, formerly steward, became a first cook; and Roy Smith continues as under-steward to the steward, Henry Wylie, formerly first cook, was discharged at his own request.

farms already producing a surplus of our basic agricultural commodities; and when we realize that the expenditure of these vast sums of money is primarily for the purpose of putting purchasing power in the hands of the American people, we wonder if it would not be wiser to pay a debt which already exists, and that eventually must be paid, when by so doing we can accomplish the very thing they are trying to do in less efficient ways by these other expenditures.

NEXT TWO WEEKS

One Year	2,000
Two Years	6,000
Five Years	20,000

Folks, if you have promised one of the workers your subscription, we frankly tell you that NOW is the time when you should make that promise good. Remember that promises are only liabilities, while credits are assets. Do not wait until next week to give your subscriptions. It will cost just as much then as now, but your favorite worker will receive hundreds—yes, thousands credits less—credits that might mean winning or losing one of the big prizes. Help all you can, as soon as you can.

Important Warning to All Campaign Workers

Only a few hours remain of the BIG FIRST PERIOD credit schedule, and it will behoove each and every worker to put the most effort possible into the business of getting subscriptions during the last few hours. The five year subscriptions count the most, and special attention should be paid to them. A few of them may mean the difference between an auto worth \$582 and a second prize worth several hundred dollars less.

Four workers are running a close race, and no one has any lead to boast of. When you have gotten the last subscription you think it possible to obtain, go out and get another. You cannot have too many, but you can easily have too few.

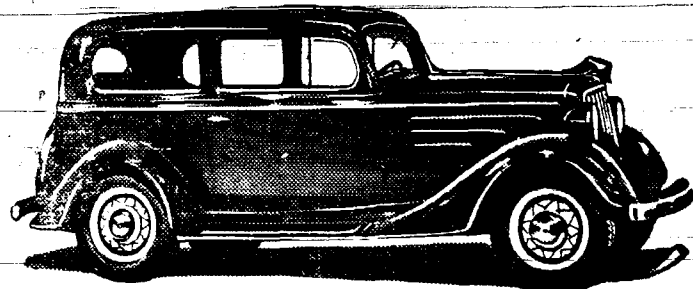

Just now it pays every "Weekly Payroll" worker to remember the value of five year subscriptions. Make a last minute rally for this period and secure a few of these. If you had to do it, you could, but you think, "Well, maybe I will win anyway." Then after someone else has won the prize you might have had, you see the light and wonder why you didn't see it before.

If Saturday, June 8, passes without speedy action upon your part, the responsibility rests upon yourselves. Saturday night is positively the last chance you will have to enter subscriptions for First Period credits—the last chance to pile up votes fast under the generous First Period weekly bonus schedule. A hundred dollars this week gives you a cool half million credits as a bonus at the end of the week—after this week it will take \$150 to earn that much in weekly bonus credits.

A few orders now, from unexpected sources, might be the very thing needed to win the race. You can only lose by holding back now, and after the time for action has passed, all the regrets in the world will be of no avail.

If you think that you're beaten
You are;
If you think that you dare not
You don't.
If you want to win and you think
You can't
It's almost a cinch that you won't.
If you think that you'll lose you've
Lost.
For out in the world you'll find
Success begins with a fellow's will;
It's all in the state of mind.

Joan Is a Prodigy

Joan Bishop of Chicago, eight years old, answered 23 of 30 questions of mental age that were compiled by the federal bureau of education. The young lady was able to read fluently when she was three years old. She answered brain twisters that would stump most adults. She has never attended school, being tutored by a professor at Northwestern university. She has composed many musical scores and plays with technique. Musical critics say she also has an excellent voice.

Question Box By ED WYNN The Perfect Fool

Dear Mr. Wynn:

I am a poor widow and have a hard time making both ends meet. I now find out that I could make some extra money by taking in washing. I don't know any people who send out their wash, so please tell me the best way to get in touch with those kind of people, will you?

Yours truly,

I. VORRESCOPE.

Answer: Just put an ad in the newspapers to read as follows: "A POOR WIDOW NEEDS WASHING."

And then give your address.

Dear Mr. Wynn:

I met a boy at a dance last night and I like him very much. During our conversation, though, it seemed to me as if he was bragging a bit. He said that his brother lived in England and that he sits before the king and queen every day and keeps his hat on. Do you believe that?

Sincerely,

ROC A BIBABY.

Answer: Sure I do. He is their chauffeur.

Dear Mr. Wynn:

I have an uncle who swears from morning till night. I never heard such language as he uses. Where in the world do you think he learned to swear like that?

Sincerely,

HELEN DAMM.

Answer: My dear Miss Damm. If your uncle does what you claim for him I assure you he could not have learned it any place, it must have been a gift.

Double Duty Dress

The tailored ensemble of navy and white pin-dotted sheer taffeta does double duty. The jacket with its white linen revers and big sleeves makes the costume an informal dinner dress or serves as a little wrap over the low-cut gown.

New Chevrolet Assembly Plant Opens in Baltimore

Governmental, state and civic officials joined with the principal executives of General Motors Corporation in the formal opening of the new 80,000-car-a-year Chevrolet assembly plant in Baltimore recently. The new plant (center) was dedicated with impressive ceremonies (lower left), and Chevrolet, Fisher Body and General Motors officials were guests of the Baltimore Association of Commerce at a formal banquet in the evening. W. E. Holler, vice-president and general sales manager of Chevrolet, is shown (standing) with Maryland's Governor, H. W. Nice, and Alfred P. Sloan, Jr., president of General Motors (upper left). M. E. Coyle, president and general manager of Chevrolet, is pictured in the upper right photo with Senator Millard Tydings (left) and Mayor H. W. Jackson, of Baltimore (right). Lower right shows the first motor car built in that city.

THROUGH A Woman's Eyes By JEAN NEWTON

GETTING YOUR OWN WAY USUALLY ISN'T WORTH THE COST

WHEN a well-known clubwoman spoke recently, on "Making a go of marriage," she said: "Let neither husband nor wife strive to be the dominating person in the household. A victory for either in this respect means failure for the partnership."

And that is true. The emptiest victory in the world is the victory of being the boss; and particularly in marriage. Not only does it mean failure for the partnership if there is a "boss"—it means the death of love—the kind of love that counts.

For we can hardly be "in love" with anyone we have to be afraid of, from whom it is expedient to conceal something, some one who by getting his or her own way, "puts one over" on us. We can hardly await that person's homecoming with joy, or in the case of a man, look forward with joy to going home to such a person. We can't have that warm feeling which means love and affection and pleasure in being in a person's company.

If we stop to think about it, that must be obvious to any of us. And yet people don't stop to think, apparently. For constantly, around us, we see going on between husbands and wives that struggle to get their own way—to be "boss." They do not think of it so much in terms of being "boss," of course; they are just impelled to get their own way. And they get it—or the one with the most dominating temperament and the strongest constitution does. And both lose.

If people would only stop to think about it, I believe in nine cases out of ten they would conclude that the thing in which they got their own way wasn't really worth making such a fuss about, and was certainly not worth the high price it cost.

Taxpayer the Goat

There is an old case on record where a man was condemned to stand on the pillory for some offense or other, with a rope around his neck. The plank on which he stood was rotten and the offender found himself hanging in the air almost suffocated before bystanders came to his rescue. He brought an action against the town for the defective pillory and recovered damages.

Wet and Wetter Seasons

Most of us are familiar with the fact that tropical countries usually have two seasons, wet and dry. But the Federated Malay states, has so much rain that the seasons are known as the wet and the wetter season.

Four Classes of Car Service

Both railroads and street cars in French Indo-China have four classes of service, with Europeans permitted to ride first, second and third but not fourth class, which is reserved for natives.

Mother's Cook Book KITCHEN SHORT CUTS

THERE are so many culinary operations needlessly repeated day after day in numberless homes, making gravies, mixing pastry for pies, cheese sticks and tarts, all at different times, when one process would make all three.

One of the daily tasks in most homes of the dinner hour is the making of gravies. The French word roux covers the base or thickening of gravies. There is white roux and brown which is simply white roux browned.

A hurriedly made sauce or gravy is apt to be served undercooked. By preparing the roux beforehand and keeping a surplus on hand, time is saved.

For the white roux melt one-half cup of shortening in a heavy frying pan, add three-fourths of a cup of flour and cook slowly, stirring constantly until it is thoroughly blended and well cooked. Remove from the fire and store in a cool place until needed. For thickening soups, white sauce, creamed chicken or vegetables, use one to two tablespoons of the roux to each cup of liquid, according to the thickness desired.

A french dressing much liked and one which will keep two weeks in the ice chest is prepared as follows: Chop one small southern onion, two tablespoons each of red and green pepper, one tablespoon each of celery and parsley, a teaspoon of sugar and salt and cayenne to taste, with the vinegar and oil in proportion of one to three or four. Add two tablespoons of the piquant french dressing to the mayonnaise when serving. Hard-cooked eggs may be added, but should not be put into the dressing until ready to use.

Big Votes Near End In Big Campaign

CREDITS ON SUBSCRIPTIONS DROP SHARPLY AFTER SATURDAY NIGHT

It won't be long now! No, not the close of the "Weekly Payroll" subscription campaign, but the termination of the all-important "First Period."

As every campaigner knows, the period ending Saturday night, June 8, marks the close of the MAXIMUM SCHEDULE OF VOTES given on all subscriptions—in other words, each subscription now counts more than it will next week and thereafter.

And as this final call goes out for the close of the first period, campaign workers are working hard in their efforts to obtain all possible subscriptions before the death of BIG VOTES.

This week, ending at 10 o'clock Saturday night, promises to see all records broken in regard to the number of subscriptions turned in. Each worker realizes that it is NOW OR NEVER—that subscriptions must be collected now or suffer a loss in voting power next week.

Forget Past Efforts! It is not what campaign workers have done in the past, but what they are going to do now, that counts. The wise worker is the one who sees the opportunity to-day, tomorrow and Saturday, and acts to make the most of the few hours remaining of the "First Period."

Now, if ever, is the time for action, as results obtained this week will determine largely who will qualify in the finals for the main awards—headed by the beautiful Chevrolet coach, the Sheldahl refrigerator and the cash bonuses.

The race goes to the swift, not to the glib. Nothing counts but effort. There is little question but that the worker who gets around to see the most people will be the one with the greatest number of votes when the campaign ends. Make the calls—and you will make the money.

Opportunity Will Pass

Never again after Saturday night will it be possible to realize the full earning power on subscriptions. There will be no more Booster Weeks or similar offers to increase their value. This is final and fair warning. If you entertain any desire whatever of being declared the winner of the big prize, do not fail to do your best this week-end.

Not to do so simply means that you will have to redouble your efforts during the remainder of the race to make up lost ground. A few long-term subscriptions NOW may be the very ones needed to "cinch" the big prize—they could hardly help winning one of the top ones for you.

At any rate, this Saturday night will, to a considerable extent, tell the story. Your fate is in your hands. You can determine it yourself. Your own subscription will help.

How Period Will Close

The "First Period" will end with the closing of the Crawford Avalanche office Saturday night. The time has been set for 9 o'clock, but should any participant be unable to report in full by that hour, the time will be extended to meet the requirements of the night. In no case, however, will the office remain open later than midnight, and up to that time, after 10 p. m., only by special appointment.

Campaigners are requested to come to the Avalanche office as early in the evening as convenient. They will be waited on individually in order—first come first served. The office will close as soon as all of the workers have reported in full, and with its closing the "First Period" ends, and the big credits will be gone forever.

LET'S GO! There is still time to plan your work, and still time to work your plan!

CARS WRECKED BY SIDE-SWIPE

Two autos crashed into one another north of Grayling last Friday completely wrecking one car and badly damaging the other while one of the occupants escaped with a sprained ankle and the others with but slight bruises.

In one car were Mr. and Mrs. Clinton J. Cardileu, Dearborn, and a CCC enrollee from Wolverine, and in the other was Mr. and Mrs. J. B. Stevenson and two CCC enrollees, all of Sault Ste. Marie. Mrs. Cardileu was the injured passenger.

Sheriff Bennett reports that he couldn't see how anyone escaped injury and possible death. The impact of the two cars was so great that when they stopped rolling they were over 300 feet apart. This site of the accident was shown with car wheels, etc., baggage and other articles. The glass was cracked and ripped into shreds. No doubt in the case the shatter-proof glass windows were broken.

Passengers of the two cars were taken to the hospital for treatment.

Quite a little excitement was created Tuesday when the grass back of the Flooring mill accidentally caught fire. The alarm was turned in but the flames were easily subdued by some of the mill workers.

Hubert LaChance spent several days visiting his cousin Mrs. Roy Wolcott and family. Mr. LaChance has just finished painting the Flooring mill smokestack and has been doing other painting for the Company.

The Chief Brand baseball team scored another victory Friday evening when they beat the Rebels 18 to 10. The Chiefs team is made up mostly of old timers in the baseball racket and most of the local teams find them pretty hard to beat.

Bobby Chappel, ten-year-old son of Mr. and Mrs. Rex Chappel has been quite ill at his home for the past week and is under the Doctor's care.

EVART DEDICATES FINE NEW MEMORIAL BRIDGE

A big day in the history of Evart was Memorial day with the dedication of the new Joseph W. Guyton Memorial bridge. This structure was named in honor of this Osceola county young man who was the first American soldier to be killed on German soil during the World war.

Murray D. VanWagoner, state highway commissioner presented the bridge for dedication. Many other prominent highway officials were present to witness the event. Maynard Bailey who is the engineer on the Lake road bridge that is now under construction, was the engineer on the work for the Evart bridge and was present at the ceremony.

SERA NOTES

Due to the fact that several

games were postponed last week, the league standings were not printed.

The best game of the season so far, was produced by the Lake and Beaver Creek teams. This was played Wednesday evening of last week. The score was tied at 1 all at the end of the regulation seven innings. The eighth inning was scoreless. In the Beaver Creek half of the 9th they pushed across one run to take the lead. The Lake team managed to get two men on the base paths to start their half of the ninth. Then a nice hit by LeBerge scored both runners, winning the game.

The Lake team scored the first shutout of the season, trimming the Northern Stars 9-0.

Tuesday of this week the A. & P. team traveled to Beaver Creek and won from them 5-0, producing the second shutout of the season.

The unbeaten Lake team ran into some stiff opposition from the Chiefs and took their first defeat, 5-2. The Chiefs are a team to be watched from now on. Beaver Creek also claim that they are going to make the other teams hustle. The Rebels team have been running into a lot of hard luck, but will bear watching. They are coming along stronger each game.

The diamonds have been numbered so the public can tell where their teams are playing. The diamonds are as follow:

- No. 1—Flooring Mill.
- No. 2—Wells' Field.
- No. 3—Tourist Camp.
- No. 4—Beaver Creek, at LaMotte's.

Ladies Night

MARY J. BEHNKE TALKS ON

TEMPERANCE EDUCATION

E. M. T. Shows Sports Films

Ladies night, the first of its kind to be held by the Kiwanis Club of Grayling, took place at Shoppenagons Inn last Wednesday night. About 100 persons enjoyed the event.

As usual the affair opened with the singing of America, with Frank Sales leading the singing and Mrs. Clippert at the piano. American and Canadian flags and Kiwanis banners adorned the walls and tables, adding largely to the attractiveness of the banquet setting. As usual the dinner was excellent and enjoyed.

During the intermission before dessert was served, taps were sounded on a bugle during which time everyone bowed his head in memory of those who lost their lives during the world war. The following day was to be Decoration day.

This being ladies night it was fitting that one of their fair sex be the principal speaker. Mrs. Mary J. Behnke of Mt. Clemens, representing Mrs. Frederick M. Alger of Detroit, the latter a member of the State Liquor commission, gave a talk on temperance and moderation in the use of intoxicating liquors. Her address was as follows:

For thirteen long, discouraging years our United States of America labored under the burden of the un-enforceable Prohibition law. That law was a failure because it attempted to curtail personal liberty. It received little, almost no—cooperation, either from the Prohibitionists themselves, who were the original backers of the law, or (naturally) from the Repealists who resented it. The spirit of hypocrisy was rife everywhere. There was a studied pretense of abiding by the law and a furtive secretive breaking of that law. Our young people were reaching maturity with the example—al-ways before them of the adults of their generation deliberately breaking a Constitutional law of their country. There could be nothing more corrupting than an example of this sort. There could be nothing more detrimental to patriotism and loyalty. In the meantime, crime was financed to an unheard of extent by bootlegging and rum-running activities. The overwhelming vote all over the country to Repeal the 18th Amendment showed that the people realized what was going on and resented the untenable position in which they had been placed.

Now—that phase is over. By that Repeal we are having a new era. We worked for Repeal. On our shoulders rests the responsibility of making the law a success. We know that we have the will of the people back of us. The success of Repeal—which was really a movement towards Temperance—rests on the individual. There are always a certain number of people who shirk a responsibility. There are always a few who by their weakness placed on them by Repeal and will over-indulge in the drinking of alcoholic beverages. This weakness of a comparative few brings onus and shame to many. The example to our young people cannot be discounted. This weakness and the effect of this example can only be corrected by education in the devastating effects of alcoholism. Our young people today are still very much under the effect of Prohibition. The teaching and the bringing them to a realization of the physical effects of over-indulgence as well as the moral effect—is going to take time. It is going to take patience and it must be handled in an entirely new way. The young people of today are noted for their frank, and open views of life. The teaching of Temperance must take a frank and open theory or it will never succeed. The old saying of the Forbidden Fruit holds true of liquor. To my great joy I have it on good authority from many sources that the tide is beginning to swing. The youngsters of legal age—being able to purchase liquor freely—are beginning to realize that it isn't any fun any more and the steward of the Country Club in Grosse Pointe says that he is serving much more milk and lemonade to these young people than anything stronger. This does not mean, however, that the tide will really swing without Temperance Education. The responsibility of the older people, who watch the beginning of the upward swing, is very plain. First by example and by a strict observance of the law of the land—secondly by a frank facing of the situation and frank talks to the young people. The element of scolding should not be injected into these talks—they should be much

more in the nature of a heart-to-heart—man-to-man explanation of the effects of over-indulgence. Every young person likes to be given an equal footing with an older person. We feel that if we can gain their confidence half of the battle will be won. We hope that through the schools and colleges—that in the homes, now that we have a liberal law—we can inject a frank discussion and a teaching of moderation that will, in time bring to our coming generations—the realization of the utility and the disastrous effect of letting the appetite for alcoholic liquor get the best of them. In this new undertaking—we need your help. We need your moral support as well. The weakness of a comparative few must not contaminate the undertaking. We cannot sit back and say—conditions are terrible and do nothing about it. It is my firm conviction that at last we are on the right track and that if we are patient and earnest in our endeavors to cure the weakness which I believe is an inheritance of the Prohibition Law—that we can do much to make our State a leader in the new drive for a real Temperance.

We are working—faithfully hoping that the Liquor Control commission may in a very short time have the hearty cooperation of groups such as this "the Kiwanis Club of Grayling" to help them lead Michigan in a drive for a Real Temperance and make our state the leader.

An added attraction for Ladies night was the presentation by the East Michigan Tourist association of two motion picture films showing Winter sports in Michigan, in which Grayling was most prominently featured, and pictures of Grayling's last summer canoe carnival. Ben Wright, publicity director for the E.M.T. presented the pictures.

These pictures, according to Mr. Wright, have been shown throughout the central states and are still in great demand. The publicity coming to Grayling from these pictures is of inestimable value. Hundreds of thousands of people have already seen these pictures and Grayling must appear to them as a mecca for winter sports and for summer vacationists.

To finish up a pleasant evening the dining room was cleared and the Kiwanians and their ladies enjoyed a few hours of dancing.

Carrying the "Coals"

Newcastle is a center of the British coal trade, and a great port for the shipping of it. To "carry coals to Newcastle" is a waste of labor, a futile, or unnecessary effort, an effort to supply a need already well supplied. The phrase is of Seventeenth century origin, or perhaps older. But similar proverbs exist in many languages. There is one in French about "carrying water to the river." Ancient Greece has one about taking owls to Athens—Athenian coins being stamped with the owl; and an Oriental poet speaks of "importing pepper to Hindustan."

Gov. Appoints Local Credit Committee

Appointment of a Farm Debt Advisory committee for Crawford County was announced today by Governor Frank D. Fitzgerald. The county committee will cooperate with the Michigan Agricultural Advisory Credit committee in an effort to solve rural debt problems.

Oliver B. Scott of Roscommon has been designated by the Governor to act as secretary of the committee. Other members are H. A. Ferguson, Grayling; Stanley Hummell, Grayling; and J. E. Kellogg, Lovells.

The Governor has asked the committee to meet at once in order that the program of farm debt adjustment can get under way as soon as possible.

The debt adjustment work is being conducted in cooperation with the rural rehabilitation program of the FERA. James F. Thomson, Commissioner of Agriculture, is chairman of the Advisory Credit committee. C. H. Wright is executive secretary with offices in the State Department of Agriculture, Lansing.
